

MInTFM - ICGP

GRADUATION CEREMONY 2025

Message from

Datuk Dr Mahathar Abd Wahab

Director General of Health, Ministry of Health Malaysia

It gives me great pleasure to extend my heartfelt congratulations to all the graduates of the MInTFM programme. Today's ceremony marks not only the culmination of your dedication, perseverance, and hard work, but also the beginning of an important journey as leaders and practitioners in primary care.

Your achievements reflect the commitment you have made to improving the health and wellbeing of the communities you serve. Primary care is the foundation of a strong healthcare system, and your role in strengthening this pillar is both vital and deeply valued.

MInTFM, in close partnership with the Ministry, is dedicated to developing excellence in family medicine and building a strong primary care workforce for Malaysia. By working together, we are laying the foundation for a healthier and more resilient nation.

On behalf of the Ministry, I congratulate you once again and wish you continued success in your careers. May you always serve with compassion, integrity, and a deep commitment to your patients and communities.

Datuk Dr Mahathar Abd Wahab

Director General of Health, Ministry of Health Malaysia

Message from **Dr. Nuala O'Connor**

President, Irish College of GPs

It is a great honour to extend my heartfelt congratulations to the MIntFM Graduate Class of 2025 on the successful completion of your four-year Family Medicine training programme and your achievement in passing the MICGP examination. This milestone marks the culmination of years of dedication, learning, and personal growth,

and it is a moment to be celebrated with pride. You have demonstrated the clinical excellence, professionalism, and compassion that are the hallmarks of outstanding Family Medicine Specialists.

The Irish College of GPs is proud of its partnership with MIntFM, RUMC and iheed, and we continue to be inspired by the calibre of graduates emerging from this programme. Your success reflects not only your own commitment but also the strength of the MIntFM faculty, the support of your peers, and the vision of a training model that prioritises community-based, patient-centred care. You are now part of a global network of family doctors who are making a meaningful difference in the lives of individuals and communities.

As you embark on your careers as Family Medicine Specialists, I encourage you to remain curious, compassionate, and committed to lifelong learning. The future of healthcare depends on leaders like you—clinicians who understand the value of continuity, equity, and holistic care. On behalf of the Irish College of GPs, I wish you every success and fulfilment in the years ahead. Congratulations once again on this wonderful achievement.

Dr. Nuala O'Connor
President, Irish College of GPs

Message from **Mr. Fintan Foy**

CEO, Irish College of GPs

It is with immense pride and admiration that I extend my heartfelt congratulations to the MInTFM Class of 2025. Your journey through this rigorous and transformative programme has not only equipped you with the clinical expertise required of a Family Medicine Specialist, but also with the resilience, compassion, and leadership that define the very best in this wonderful specialty. MInTFM continues to set a benchmark in postgraduate training, and your graduation today is a testament to your dedication and the unwavering support of your scheme directors, trainers, peers, patients, and families.

As you step into the next chapter of your careers, I encourage you to carry forward the values that MInTFM instils—integrity, excellence, and service to community. You are now ambassadors of the programme that is shaping the future of primary care across Malaysia. I look forward to seeing the impact you will make in your communities and beyond. Congratulations once again, and may your careers be filled with purpose, growth, and meaningful contribution.

Mr. Fintan Foy

CEO, Irish College of GPs

Message from **Ms. Rebecca Patterson**

General Manager, iheed

I have had the privilege of being involved with the Malaysia Ireland Family Medicine Training Programme since its inception in 2018. In that time, I have witnessed its remarkable growth — from its early beginnings to now over 400 family medicine trainees across five training locations throughout Malaysia.

This partnership stands as a powerful example of international collaboration at its best — between iheed, the Irish College of GPs, and the Royal College of Surgeons in Ireland and University College Dublin Malaysia Campus (RUMC). As a board member, I am proud to support a programme that is shaping the future of family medicine in Malaysia. I look forward to seeing our graduates continue to elevate patient care, strengthen primary healthcare delivery, and make a lasting impact on the health and wellbeing of communities nationwide.

Rebecca Patterson

General Manager, iheed

Message from Professor Karen Morgan

President & CEO, RUMC

Dear Graduands,

On behalf of RUMC I extend my heartfelt congratulations to each of you on this very special occasion. This is such an important milestone and the culmination of years of hard work by you all. I hope you take some time to celebrate with your friends and families and enjoy this accomplishment.

In joining the MInTFM programme you committed to undertaking a demanding academic and professional journey. The integrity, resilience, compassion and commitment to patient care that you have demonstrated throughout your training will serve you well as Family Medicine Specialists. You enter this specialty at a critical time, and have the opportunity to effect significant change in healthcare. Now more than ever we need strong leadership in healthcare. We hope that MInTFM has prepared you well to step forward and step up and to be strong advocates for your patients, their families, and carers and for your colleagues in healthcare.

Please stay in touch through the alumni society, we are excited to watch where your careers take you.

Comhghairdeachas

Professor Karen Morgan
President, RCSI & UCD Malaysia Campus (RUMC)

Message from National and Deputy National Clinical Directors of MInTFM

Dear Graduates,

It is a privilege and a joy to celebrate this important milestone with you. Today marks not only the culmination of years of dedication and hard work, but also the beginning of your journey as Family Medicine Specialists who will continue to shape the future of primary care in Malaysia.

We have both been inspired by your resilience, compassion, and commitment throughout this demanding programme. You have shown what it truly means to serve, balancing professional excellence with care for your patients, your colleagues, and your communities. Whether in a busy Klinik Kesihatan, or through rural outreach, your work strengthens the very heart of our healthcare system.

As you move forward, remember that Family Medicine is rooted in people, in understanding their stories, building trust, and improving lives one consultation at a time. Continue to grow, to learn, and to lead with humility and confidence. The future of healthcare depends on doctors like you, dedicated, grounded, and proud to serve your community.

On behalf of everyone in MInTFM, we extend our warmest congratulations and heartfelt thanks for your contribution to Family Medicine in Malaysia. We look forward to walking alongside you as colleagues and continue on the path to strengthen primary care in Malaysia.

Comhghairdeas,
táimid an-bhródúil asat,

Tahniah,
kami bangga dengan anda semua,

Dr Paula Greally
National Clinical Director, MInTFM

Dr Artini Abidin

Scheme Director (Northern), MInTFM

Dr Salbiah Mohamed Isa

Scheme Director (Central), MInTFM

Dr Ratna Wati Rahman

Scheme Director (Southern), MInTFM

Graduation Ceremony 2025

Declaration on admission as a Member of the Irish College of GPs

I do solemnly declare and promise that I will, to the best of my ability, uphold the primary aims of the Irish College of GPs, to serve the patient and the general public by encouraging and maintaining the highest standards of family medicine.

I promise to continue to learn and maintain my competence for the benefit of my patients.

I will practice medicine with integrity, humility, honesty and compassion – working with my fellow Family Medicine Specialists and other clinical colleagues to meet the needs of my patients according to the standards and ethos of both the profession and the college.

I promise that I will observe and be obedient to the bylaws and regulations of the college.

And I will ensure to maintain my own well-being to provide care of the highest standard to my patients and myself.

Dr Molly Owens Award for Excellence in Family Medicine Training

The late Dr Molly Owens was a much-valued and esteemed college member who gave generously of her time, energy and sharp intellect in furthering the development of family medicine education and assessment both in Ireland and Malaysia. Alongside her work as a Continuous Medical Education tutor, she

served as an examiner for the MICGP examination for seventeen years, ultimately serving as Chair of the MICGP Examination Subcommittee from 2014 - 2019.

Her work contributed to the high regard in which the MICGP examination is held internationally. Dr Molly became ICGP Clinical Director of International Programmes, where she was instrumental in developing the MICGP examination in Malaysia, including the work of contextualizing the curriculum and the examination questions for the Malaysian training programme. Molly loved spending time working with her Malaysian colleagues and developed strong relationships, which ultimately strengthened the establishment of the programme. To the very end, this was the one area of her work with the College that Molly strove to continue to support.

The Dr Molly Owens Award for Excellence in Family Medicine Training is awarded to the candidate who achieves the highest overall mark in the MICGP examination and the Entrustable Professional Activities (EPAs) for the CSCST in the 12 months leading to graduation.

This is an annual award at the MInTFM Graduation Ceremony.

MinTFM Award for Excellence in Research and Audit

Research and clinical audit are integral to the practice of Family Medicine. They form the foundation of evidence-based care and ensure that our clinical decisions are informed, effective, and continuously refined. Through these activities, practitioners evaluate the quality of care provided, identify areas for improvement, and contribute to the advancement of primary care practice.

The **MinTFM Excellence in Research and Audit Award** recognises a group of trainees whose project demonstrates excellence in inquiry, methodology, and impact. This award honours those who have shown initiative in investigating important questions, applying rigorous methods, and translating their findings into meaningful improvements for patients and communities.

Research and audit are vital components of professional development within Family Medicine. They encourage reflection, foster critical thinking, and promote a culture of continuous improvement. By engaging in these processes, trainees strengthen the link between clinical practice and academic inquiry, ensuring that the discipline continues to evolve in response to emerging evidence and community needs.

This award celebrates the dedication, curiosity, and professionalism of our trainees, and acknowledges their contribution to maintaining and enhancing the standards of Family Medicine.

MinTFM

Malaysia-Ireland Training in Family Medicine is a four-year pathway leading to Family Medicine Specialization. The programme had its first intake in October 2019, with the support from Ministry of Health. Trainees spend two years training in hospitals, and two years in health clinics (Klinik Kesihatan), guided during the latter by MinTFM's trained trainers.

The programme has grown exponentially since 2019 with 5 schemes across Malaysia – Northern, Central, Southern, Sabah and Sarawak, with an intake totalling 120 per year. Furthermore, the Northern and Central Schemes have been divided (administratively) into 2 regional teaching hubs respectively.

Graduates have earned Membership of the Irish College of GPs through successful examination, and have been awarded a Certificate of Satisfactory Completion of Specialist Training by MinTFM. Working Family Medicine Specialists form the Scheme Directing Teams and augment the graduates' learning throughout the 4 years. The programme constantly works towards its vision to help build a formidable workforce to deliver the best possible primary care for the people of Malaysia.

ICGP

Founded in 1984, The Irish College of GPs (ICGP) is the professional body for general practice in Ireland. The College's primary aim is to serve the patient and the general practitioner by encouraging and maintaining the highest standards of general medical practice. The College is the recognised body for the accreditation of specialist training in general practice in Ireland. At an international level, the College is a member of the World Organization of National Colleges and Academies and Academic Associations of General Practice (WONCA)

iheed

iheed is a medical education technology organization. iheed's mission is to see better healthcare outcomes achieved globally by working in partnership with leading medical universities, postgraduate training bodies, and other global healthcare leaders. iheed was founded as a commercial organization with a strong social mission and is working to make the best professional postgraduate education programmes accessible through the power of modern learning methodologies and digital technologies.

RCSI & UCD MALAYSIA CAMPUS

RCSI & UCD Malaysia Campus (RUMC) is the Malaysian branch campus of the Royal College of Surgeons in Ireland (RCSI) and University College Dublin (UCD), two renowned medical universities in Ireland. In 2018, RUMC was awarded University status by the Malaysian Ministry of Higher Education as a Foreign University Branch Campus, making it one of the highest levels for a foreign-owned institution in Malaysia. RUMC is recognized by the Malaysian Medical Council (MMC) and Irish Medical Council (IMC) as graduating high-performing doctors. Students receive a comprehensive medical education and hands-on clinical training in state-of-the-art facilities, preparing them to succeed in the medical profession and ensuring our graduates can pursue their medical careers anywhere in the world, including USA and Canada with recognition from ECFMG, FAIMER and WDOMS
